

Sustainable Development and the Role of Universities

LSU: Green Education, Sustainable Future!

April, 2026

Training titled "Sustainable Development and the Role of Universities" was held at Lankaran State University

The main objective of the training was to inform academic and administrative staff about sustainable development principles, enhance environmental responsibility, and strengthen an institutional approach in this field.

During the session, the key dimensions of sustainable development, the United Nations Sustainable Development Goals (SDGs), and the role of universities in this process were explained. In addition, practical approaches such as energy and water conservation, reducing paper consumption, and proper waste management were shared with participants.

The training contributed to promoting a culture of sustainability at the university and encouraging its application in daily activities.
